

SUMMER BEEKEEPING

Vincent Aloyo, Ph.D., Master Beekeeper

Queen Rearing

The benefits of raising your own queen include queens adapted to your environment, avoiding southern queens that may have mated with Africanized drones, and establishing your own nucs. Designed for the experienced beekeeper, this course includes the basics of:

- Queen rearing
- Grafting larvae
- The Cloake board method of queen rearing

You will have the option of taking your queen cells home.

Course #APR110-002
